Education

Marathwada Mitra Mandal's College of Engineering , Pune, MH	2022 – Present
Bachelor of Engineering in Information Technology	CGPA: 7.06
S.P. College , Pune, MH	2020 – 2022
Higher Secondary Certificate (HSC)	Percentage: 57.17
Shri Shivaji Vidyalay , Beed, MH	2019 – 2020
Secondary School Certificate (SSC)	Percentage: 89.60

Experience

Climkare Sustainability Pvt Ltd Full Stack Web Developer	Aug 2025- Present
React , Tailwind , Node js , ERC-1155 , IPFS , MongoDB , Web3 , QR Systems	
• Worked in a 5-member team to develop a blockchain-based carbon credit tokenization and carbon offset platform. • Built a responsive and user-friendly UI, ensuring a smooth experience across all device sizes. • Designed and implemented RESTful APIs for authentication, project management, and transaction handling. • Integrated the frontend with backend APIs, enabling seamless and efficient data flow across the system. • Used Ethers.js to interact with smart contracts for token minting, retiring, and verification on the blockchain.	

Projects

Spend Smart React.js , Tailwind CSS , Node.js , Express.js , MongoDB , JWT Authentication
• Built a personal finance management web application to help users track expenses and analyze spending patterns. • Developed a responsive frontend using React.js and Tailwind CSS, integrated with a Node.js + Express.js backend. • Utilized MongoDB to store and manage user profiles, transactions, and categorized expenses. • Implemented secure user authentication and interactive spending insights using Chart.js visualizations. • Focused on clean UI/UX design, modular architecture, and optimized overall application performance.

Crowdsourced Civic Issue Reporting and Resolution System React Native, React.js , Tailwind CSS , Node.js , Express.js , MongoDB , JWT Authentication , Docker , Flask API
• Built a fast and responsive frontend using Vite + React, including dashboards, maps, and charts. • Connected the app to backend REST APIs, handled file uploads, and used Redux Toolkit for clean state management. • Added authentication, Axios interceptors, loaders, toasts, and error handling to improve the user experience. • Created a matching React Native (Expo) mobile app with the same features and shared API logic

Skills

• Languages: Java, JavaScript • Frontend: HTML5, CSS3, Tailwind CSS, React, Canva, Figma • Backend & Database: Node.js, Express.js, MySQL, MongoDB • Tools & Cloud: Git, GitHub, Docker, Postman • Coursework: Data Structures & Algorithms, OOP, DBMS, Software Development, Machine Learning Basics, OS, Cloud Fundamentals
--

Certifications

Zscaler Fundamentals of Cyber Security	Completed: [July 2024]
Java Data Structures and Algorithms	Completed: [Aug 2025]
